

# WILL YOU HELP MY SON?

My name is Istvan (Steven) Sakac , this is my son Antal (Tony) Sakac. Tony was born a healthy happy boy in 1974. When he was 16 years old, in 1990 he was bitten by a tick, which caused him to become extremely sick and it completely paralyzed him. In 1991 I took him home from the hospital and began taking care of him by myself 24/7. I have dedicated my entire life to taking care of my son. Since this unfortunate accident I have been unable to work.

Ever since I took him home from the hospital in 1991 he is fed by a feeding tube, I care for him, bathe him, clothe him, shave him, help him stand and walk a few steps with him and take him to church. The doctors wouldn't help him anymore, and gave up on him; in contrast, I will never give up on my son. Recently we just received a handicap van as a donation from a orthodox priest.

Tony needs 24 hour care. Through prayer and donations I am able to provide him the life the doctors said he would never have. The government does not provide with enough money, medical expenses are high and i do not have any savings and Medicare doesn't pay for everything. All donations go for medical and living expenses, without my care Tony would surely have died. I pray to Jesus and the Mother of God the Virgin Mary to help me stay strong for my son. I will never stop caring for him. My son does not qualify for physical therapy because he was declared brain dead and we need volunteers to help him role and sit and lay him in his bed and other hourly activity's everyday to help him recover faster (if there's a person that can do sign language it would be favorable).
