

TO: To Whom It May Concern
RE: Steve Istvan Sakac and Tony Sakac

My name is Susan R. Kowalczyk, I am a resident Sheffield Village Ohio. I have a career of over 20 years in bank management and non profit. I have known Steve Istvan Sakac and Tony Sakac for over 17 years, since 2001. I met them at my church St. George's Orthodox Church in Lorain, Ohio. My Priest asked I assist this new family to our church and neighborhood. I was happy to oblige, since then I have become close a close friend and at time and advocate to Steve & Tony Sakac. We have become close friends, I have traveled with them big cities and out of state to see physicians for the care of his son.

WITNESSED

I have witnessed the care he gives to his son Tony. Mr. Steve Sakac's selfless & endless care, concern, attention, personal care and motivation for his son's health and care is unparalleled. His son is kept spotlessly clean, shaven and groomed; his son has no bed sores or bruises, his skin and skin color always healthy, he has good weight and muscle tone due to Steve feeding him balanced pureed meals and his selfless care and love.

A person in the biology field approached Mr. Sakac and spoke with me and shared she had been bit by a lyme tick and she felt Tony may have been bitten by a lyme tick. She shared Tony is aware at times if not at all times of what is being said around him as she was in a similar condition as Tony and knew everything going on and being said around her. I already knew this to be a fact, as when I stand at Tony's right side he moves his right hand out to bump me. When I stand at his left side he moves his left hand out to touch my body... We made an appointment with Dr. J. Joseph a lyme tick specialist and board member of the National Institute of Medicine. Dr. J. Joseph verified he had been bit by a lyme tick.

Steve Sakac is a selfless, loving, kind, caring father and endless caregiver for his son Tony. I can not imagine anyone giving better or more attentive care to Tony Sakac. In fact I can not believe I am a position to share this statement about Steve Sakac's character and care for his son, if anyone took 1 to 2 hours with Steve they would see what he does and how he does it. Tony is not unconscious and not ready to be placed in a bed in an empty room. God Bless Steve & Tony Sakac. I trust this confusion can be remedied.
